264 H STREET, SUITE A  
BLAINE, WA 98230

### **News Update—Blaine, WA—June 3, 2008**

**Diversified Bio-Medics, Inc. (DBMI) a Nevada corporation with a focus on the development of cGMP facilities for bio-manufacturing, is pleased to announce the appointment of Dr. Mark Lee to the position of Advisory Board member of DBMI with a focus on corporate development.**

Dr. Lee began his career in a family-owned real estate and insurance business in Ontario in 1984. In 1991, after completing his MBA, Mark moved to Saskatchewan to teach undergraduate business at Briercrest College in Saskatchewan, then later taught graduate studies in leadership and management. While at Briercrest, Mark also took on the role of Vice President of Finance and Operations, which required doing a significant turnaround of the organization's finances and operations. In 1999, Mark became the President & CEO of Lakeland College in Alberta. During his tenure as President, the College grew from 3,000 students to over 10,000 students, and grew revenues from \$24 million to around \$47 million. In the summer of 2005, Dr. Lee left Lakeland to return to the classroom at Trinity Western University. Since arriving at Trinity Western University, Mark has been appointed the Director of the MBA program, and has launched both the MBA program and the iMBA program.

As a senior executive and professor with advanced training in both finance and human resource management, Dr. Lee has experience in both academic, non-profit, and entrepreneurial environments. He has been effective at re-envisioning organizations, defining strategies and communicating the vision to all levels of organization. Dr. Lee has led various organizations through significant changes in organizational structure and culture by implementing an empowerment leadership paradigm, which resulted in significant growth and revenues.

DBMI is pleased to welcome Dr. Lee to the Advisory Board. His insights into the business environment in Canada will be most helpful as the company moves forward with the build out of the bio-manufacturing facility in Canada.

Dr. Lee received a B.Sc. in Psychology from York University, Toronto, Ontario in 1984. He received his MBA in Finance and Management from Liberty University, Lynchburg, Virginia in 1991 and a D.B.A. in Human Resource Management from Nova Southeastern University, Ft. Lauderdale, Florida in 1995. Mark is married with two children.
