

## Diversified Bio-Medics, Inc.

### News Update- Blaine, WA- March, 2008

**Diversified Bio-Medics, Inc. (DBMI) a Nevada corporation with a focus on the development of cGMP facilities for bio-manufacturing, is pleased to announce the following:**

On behalf of **Diversified Bio-Medics, Inc.**, the **Province of British Columbia, Ministry of Economic Development**, Canada, sent out the **Request for Proposal (RFP)** on March 4, 2008 to the selected communities within the province of British Columbia. These communities are both Linx BC members and non-members alike. The input returned from the provincial communities will be an essential element for the development of the feasibility study. The electronic and hard-copy results from the communities have been requested to be returned within thirty days, and no later than April 15, with extensions, to the Department of Economic Development and on to DBMI. The results of the RFP's mark the initial confirmation supporting the market needs DBMI intends to address through its contract manufacturing plant.

**Diversified Bio-Medics, Inc.** has requested an updated address list from its shareholders. For filing purposes, it is helpful for us to confirm our most accurate shareholder contact records. Current address information, including e-mail addresses should be submitted at your earliest convenience. Please send the attached form back to Mr. Edward Onyon, Diversified Bio-Medics, Inc., 264 H Street, Suite A, Blaine, WA 98230.

#### **About Diversified Bio-Medics, Inc.**

**Diversified Bio-Medics, Inc.**, (DBMI) is addressing the current and emerging requirements for expanded cGMP bio-manufacturing capacity and expertise both regionally and nationally. A Diversified facility will enable bio-technology companies to accelerate the development of candidate biopharmaceutical compounds to their next level of evaluation by providing client/partners with turn-key access to comprehensive biological manufacturing services that includes validated cGMP bio-manufacturing facilities, quality systems and biological manufacturing expertise.
